Troubleshooting Common Fleetwood Mallard Issues

Even with the best maintenance, occasional hiccups are part of RV ownership. Here are a few common issues and their potential solutions, acting as a mini-troubleshooting guide derived from typical Fleetwood Mallard owner's manual advice.

3. **Water Heater Not Working:** For propane models, ensure the pilot light is lit (if applicable) or the igniter is functioning. Check for propane supply

and electrical power (for electric ignition models).

4. **Battery Not Charging:** Inspect the shore power connection, check the converter, and test your house batteries. Dirty battery terminals can impede charging.
5. **Soft Spots on the RV Roof:** This often indicates delamination or water intrusion. Immediate professional inspection and repair are crucial.
