Understanding the Nursing Landscape at Century College (2014-2015)

In the 2014-2015 academic year, Century College offered distinct pathways to a nursing career, catering to a variety of student goals and prior educational backgrounds. The primary tracks available were the Associate Degree in Nursing (ADN) and the Practical Nursing (PN) certificate. Each program was meticulously designed to meet the rigorous standards set by nursing education accrediting bodies and to prepare graduates for the demanding yet rewarding roles in healthcare.

The Associate Degree in Nursing (ADN) Program

The ADN program at Century College was, and continues to be, a cornerstone for those seeking to become Registered Nurses (RNs). This comprehensive program typically spanned two years of full-time study, encompassing both theoretical coursework and extensive clinical practice. Students in the ADN program received a well-rounded education covering a broad spectrum of nursing theory, critical thinking, patient assessment, medication administration, and the ethical and legal responsibilities of a registered nurse. Key areas of study within the ADN program often included: * **Foundational Sciences:** Anatomy, Physiology, Microbiology, and Chemistry formed the scientific bedrock of nursing practice. * **Nursing Fundamentals:** Principles of nursing care, patient safety, infection control, and basic nursing skills were introduced early on. * **Medical-Surgical Nursing:** This crucial component involved learning to care for adult patients with a wide range of acute and chronic conditions. * **Maternal-Child Nursing:** Education focused on the health needs of pregnant women, newborns, and children. * **Psychiatric-Mental Health Nursing:** Understanding and addressing the mental and emotional well-being of patients was a vital part of the curriculum. * **Pharmacology:** A deep dive into the principles of medication action, administration, and patient education. * **Nursing Leadership and Management:** Preparing students for roles that might involve supervising other healthcare professionals.
