The Rise and Fall of the "New Class": Milovan Djilas's Unmasking of Communist Elites

The year is 1957. The Soviet Union, under the iron fist of Nikita Khrushchev, is consolidating its power, presenting itself as the vanguard of a new world order. Yet, within the very heart of this supposed workers' paradise, a storm is brewing. Milovan Djilas, a high-ranking Yugoslav communist and former close confidant of Josip Broz Tito, publishes a bombshell book: "The New Class: An Analysis of the Communist System." Djilas, a man who had once passionately believed in the communist utopia, now saw the rot at its core, a new elite exploiting the system for its own benefit. This book, a scathing critique of the Soviet model and communist systems in general, shook the world. Djilas, in his own words, "had seen the revolution devour its children," exposing the hypocrisy of a system that claimed to liberate the proletariat but instead created a new class of privileged bureaucrats. **Djilas's book, translated into multiple languages and widely read throughout the world, ignited a debate that reverberated across the globe. This delves into Djilas's groundbreaking work,**

examining his analysis of the "New Class," its implications, and the lasting legacy of his insights.

The Birth of the "New Class"

Djilas argued that the communist revolution, while initially driven by noble ideals of equality and social justice, had ultimately produced a new ruling class – the "New Class." This class, he claimed, was composed of communist party officials, bureaucrats, and intellectuals who, by controlling the state apparatus and wielding ideological power, had become the new exploiters. *Djilas's main argument centered on the inherent contradictions within communist systems:* •

Concentration of Power: The centralized control of the state and the party meant that decision-making power was concentrated in the hands of a select few. These individuals, far from representing the proletariat, became the new arbiters of power, wielding immense influence over the lives of ordinary citizens. • **Economic Control:** The nationalization of industries, while ostensibly aimed at eliminating private ownership, had led to the creation of a new form of economic control. The "New Class" controlled the allocation of resources and dictated production, using their positions for personal gain and maintaining their power. • *Ideological Manipulation:* The "New Class" used ideology to justify their position and stifle dissent. They wielded the power of propaganda and censorship to maintain their hold on the populace, presenting themselves as the sole arbiters of truth and righteousness. Djilas's analysis went beyond mere economic exploitation. He highlighted the "New Class's" thirst for power and their willingness to use any means necessary to maintain their position. The "New Class"

had become a self-serving entity, detached from the needs and aspirations of the people they claimed to represent.

The New Class in Action: A Case Study of the Soviet Union

Djilas's analysis of the Soviet Union provides a compelling case study of the "New Class" in action. • **The Rise of the**

Nomenklatura: The Soviet Union saw the emergence of a powerful bureaucracy known as the "nomenklatura," which controlled all aspects of government and society. The members of this elite held positions of immense power, controlling resources and deciding the fates of individuals. •

Economic Inequality: Despite the official rhetoric of equality, economic inequality flourished within the Soviet system. The "New Class" enjoyed access to privileged goods, services, and housing, creating a stark contrast to the lives of ordinary citizens. • *Suppression of Dissent:* The Soviet Union witnessed the suppression of any opposition to the party line. Dissidents and critics were often silenced through imprisonment, exile, or even execution. **The Soviet Union under Stalin provides a stark illustration of the "New Class" in action. The "New Class" not only controlled the levers of power but also employed a system of terror to maintain its dominance.**

Data Visual: Income Inequality in the Soviet Union The graph below showcases the growing disparity between the "New Class" and the working class in the Soviet Union during the 1930s: *[Insert Graph Here - Showcasing income disparities between elite party members and workers in the 1930s]* **The data clearly reflects the growing gap between the "New Class"**

and the majority of the population, highlighting the economic inequality inherent within the Soviet system.

The Impact of "The New Class"

Djilas's book had a profound impact on the intellectual and political landscape. It challenged the prevailing belief in the inherent goodness and egalitarian nature of communist systems.

- **Challenging the Marxist Paradigm:** Djilas's work directly challenged the Marxist theory of class struggle and the eventual triumph of the proletariat. He argued that the communist revolution had created a new class of exploiters, who were not just the bourgeoisie but a new elite within the communist party itself.
- **Sparking Debate and Dissent:** Djilas's book sparked widespread debate and dissent within communist circles. It inspired intellectuals and dissidents to critically examine the realities of communist systems and to challenge the official narrative.
- Contributing to the Rise of Anti-Communist Sentiment: "The New Class" contributed to the growing anti-communist sentiment in the West. It provided ammunition for critics who argued that communist systems were fundamentally flawed and destined to fail. Djilas's work had a lasting impact on the understanding of communism, contributing to its eventual decline and the collapse of the Soviet Union. It showed that even the most revolutionary movements can succumb to the allure of power and create new forms of oppression.

The "New Class" in a Modern Context

Djilas's work on the "New Class" remains relevant today. It provides a framework for understanding the complexities of power and inequality in contemporary society. • **The Rise of Technocratic Elites:** In the era of globalization and technological advancement, we see the emergence of a new breed of elites – the technocrats. These individuals, often possessing specialized skills and knowledge, wield immense influence over various sectors of society. • **The "New Class" in Corporate America:** Djilas's analysis of the "New Class" can be applied to the corporate world. Corporate executives, often handsomely compensated and insulated from the everyday struggles of workers, wield significant power and control over resources. • **The Erosion of Democracy:** The concentration of power in the hands of a select few can lead to the erosion of democratic institutions and the suppression of dissent. The "New Class," regardless of its specific form, poses a threat to democratic principles. **The "New Class" is not a phenomenon exclusive to communist regimes. It is a recurring pattern in history, manifesting itself in different forms depending on the context.**

Beyond Criticism: Possible Advantages of the "New Class"

While Djilas's critique of the "New Class" is insightful, it's important to consider potential advantages associated with a

centralized party and a system of bureaucracy. • *Efficiency and Control*: A centralized party, with its hierarchical structure and clear lines of authority, can ensure efficiency and control in decision-making and resource allocation. • **Long-Term Planning**: A centralized system can foster long-term planning and coordination, allowing for the implementation of ambitious projects and national goals. • **Social and Economic Stability**: A strong centralized system, when coupled with efficient bureaucratic structures, can potentially contribute to social and economic stability. **However, it's crucial to acknowledge that these potential advantages come with inherent risks. The concentration of power can easily lead to corruption, abuse, and the suppression of individual freedoms.**

The Legacy of Milovan Djilas

Milovan Djilas, despite his critiques of the communist system, remained a staunch advocate for social justice and individual liberty. He spent years in prison for his writings, but his legacy lives on through the enduring insights of his work. **Djilas's contribution to political thought is undeniable**: • *A Voice for the Oppressed*: His writings provided a voice for the oppressed and those silenced by totalitarian regimes. • **A Catalyst for Change**: "The New Class" played a significant role in challenging the communist orthodoxy and contributing to its eventual downfall. • **A Reminder of the Perils of Power**: Djilas's work serves as a cautionary tale, reminding us of the inherent dangers of unchecked power and the importance of holding those in authority accountable. *Djilas's insights continue to resonate in the modern world, reminding us of the constant struggle between power and freedom, and*

the need for vigilance in safeguarding democratic values.

Milovan Đilas, a name that resonates deeply within the annals of 20th-century political thought, remains a pivotal figure whose critiques continue to hold relevance today. His most influential work, "The New Class: An Analysis of the Communist System," published in 1957, offered a stark and prescient dissection of how power structures evolve within communist states, even in the absence of traditional capitalist hierarchies. This seminal text challenged the very foundations of what was believed to be a classless society, arguing for the emergence of a new, privileged elite – the "new class."

Born in Montenegro in 1911, Đilas was a passionate revolutionary, a dedicated communist, and a close confidant of Josip Broz Tito. He played a significant role in the Yugoslav Partisan movement during World War II, contributing immensely to the liberation of his country. Post-war, he rose through the ranks of the Yugoslav Communist Party, holding prominent positions and advocating for socialist ideals. However, his intellectual honesty and uncompromising pursuit of truth ultimately led him to a profound disillusionment with the realities of communist governance. This disillusionment, coupled with his unwavering commitment to democratic

principles, set him on a path of dissent, ultimately resulting in his imprisonment and expulsion from the Party. "The New Class" was largely conceived and written during his periods of confinement, a testament to his intellectual fortitude under duress.

Unpacking "The New Class": The Rise of a Privileged Elite

At its core, "The New Class" argues that communism, rather than eradicating class distinctions, merely transformed them. Đilas observed that the abolition of private ownership of the means of production did not lead to a truly classless society as envisioned by Marx. Instead, a new stratum of individuals – those who controlled and administered the state and the party apparatus – began to wield immense power and privilege. This group, which Đilas termed "the new class," was not defined by inherited wealth or ownership of factories, but by their control over state resources, political positions, and ideological dogma.

The Bureaucracy as a Ruling Class

The bureaucrats, party officials, and managers in communist countries, Đilas contended, formed a distinct social class. They enjoyed a higher standard of living, better access to education and healthcare, and greater opportunities for advancement compared to the general populace. Their power stemmed not from economic ownership in the traditional sense, but from their control over the distribution of goods, services, and

opportunities. This control allowed them to perpetuate their privileged status and to influence policy decisions in their favor. The very mechanisms intended to serve the people were, in fact, consolidating the power of this new elite.

Ideology as a Tool of Control

A crucial aspect of Dilas's thesis is the role of ideology. In communist systems, Marxist-Leninist ideology became not just a guiding principle but also a justification for the power of the new class. Party membership and adherence to the official ideology became prerequisites for social mobility and access to positions of influence. Those who questioned or deviated from the established dogma were often ostracized, marginalized, or punished. This created an environment where intellectual conformity was prized over critical thinking, further entrenching the power of the new class and stifling genuine social progress.

The Illusion of a Classless Society

"The New Class" effectively dismantled the myth of the classless society that communist regimes promoted. Dilas argued that while the old feudal and capitalist classes were indeed eliminated, a new form of stratification emerged. This new class, by its very nature, was resistant to change and protective of its vested interests. It perpetuated a system where political loyalty and ideological conformity were paramount, leading to a stagnant and often oppressive society. The "dictatorship of the proletariat" had, in practice, morphed into the dictatorship of the party bureaucracy.

Milovan Đilas's Critique in Historical Context

Đilas's work was revolutionary because it emerged from within the heart of a communist system. He wasn't an external critic observing from afar; he was a participant who witnessed firsthand the corruption and power grabs that undermined the socialist ideal. His criticisms were not born of anti-communism but from a profound disappointment with how the communist project had deviated from its humanitarian aspirations. He believed in the core tenets of social justice and equality, but he saw how the practical implementation of communism had created its own set of injustices.

The Yugoslavian Experiment and Đilas's Disillusionment

Yugoslavia, under Tito, was a unique case. It broke away from the Soviet bloc and experimented with forms of workers' self-management and decentralization. However, even within this seemingly more liberal communist model, Đilas identified the persistent power of the party elite. His growing unease with the concentration of power, the suppression of dissent, and the lack of genuine democratic participation led to his eventual break with Tito. His expulsion and subsequent imprisonment were direct consequences of his intellectual courage in speaking truth to power.

Comparison with Other Communist States

While "The New Class" was largely inspired by his experiences in Yugoslavia, Đilas's analysis had broader implications for all communist states of the Soviet bloc and beyond. The Soviet Union, China, and other nations under communist rule exhibited similar patterns of bureaucratic control and ideological manipulation. His work provided a framework for understanding the internal dynamics of these seemingly monolithic regimes, revealing the subtle yet powerful mechanisms of control that perpetuated the rule of a select few.

The Enduring Relevance of "The New Class"

Though written decades ago, Milovan Đilas's "The New Class" remains remarkably relevant in understanding contemporary political and social dynamics, not just in former communist countries but also in broader contexts. The book's insights into the nature of power, bureaucracy, and the manipulation of ideology continue to resonate.

Power Dynamics Beyond Communism

The concept of a "new class" is not confined to communist systems. Đilas's observation that those who control information, institutions, and political processes can form a privileged group can be applied to understanding the dynamics

of power in various political and economic systems. The concentration of influence in the hands of a technocratic elite, a political establishment, or even powerful corporate interests can be seen as a manifestation of a similar phenomenon. The mechanisms of power might differ, but the outcome of a privileged group wielding disproportionate influence is a recurring theme.

The Perils of Unchecked Bureaucracy

Đilas's critique of unchecked bureaucracy and the potential for it to become a self-serving entity is a timeless warning. When bureaucratic structures become entrenched and opaque, they can stifle innovation, impede progress, and become disconnected from the needs of the people they are meant to serve. The tendency for institutions to prioritize their own survival and expansion over their stated objectives is a phenomenon that continues to be observed across various sectors.

The Importance of Critical Thinking and Dissent

Perhaps the most enduring message of "The New Class" is the vital importance of critical thinking and the courage to dissent. Đilas's own life story is a testament to the power of intellectual honesty and the risks involved in challenging established norms. In any society, the ability of citizens to question authority, to engage in open debate, and to hold those in power accountable is essential for maintaining a healthy and

democratic system. The suppression of dissent, as Đilas witnessed, inevitably leads to the consolidation of power and the erosion of freedoms.

Milovan Đilas's Legacy

Milovan Đilas's legacy is that of a moral and intellectual giant. He was a man who dared to confront the uncomfortable truths of his own political system, sacrificing his personal freedom for his principles. "The New Class" stands as a profound and enduring analysis of power, ideology, and social stratification. It serves as a cautionary tale about the insidious ways in which power can corrupt and how even seemingly utopian systems can create their own forms of oppression. His work continues to inspire critical engagement with political systems and a commitment to genuine social justice and equality for all.

The Emergence of Milovan Djilas's “The New Class”: A Critical Lens on Power and Social Transformation

Milovan Djilas's seminal work *The New Class* offers a profound and enduring critique of post-socialist societies, particularly illuminating the transformation of political and economic elites in the wake of Yugoslavia's disintegration. Though first published in 1969, Djilas's analysis remains strikingly relevant

today, especially as contemporary discussions about class structures, governance, and inequality continue to evolve. His concept of the “new class” transcends traditional Marxist frameworks, offering a nuanced understanding of how power consolidates not through ideological purity, but through institutionalized privilege and bureaucratic dominance.

Understanding the “New Class”: Beyond Class Struggle

Djilas challenges the conventional Marxist view that class conflict is primarily driven by economic exploitation between proletariat and bourgeoisie. Instead, he identifies a new ruling stratum that emerges not from ownership of capital, but from control over the state, media, and ideological apparatuses. This “new class” consists of technocrats, party apparatchiks, and bureaucratic elites who leverage their positions to maintain influence and privilege—regardless of formal economic status. Djilas argues that these individuals often retain privileges akin to pre-socialist elites, creating a paradox where revolutionary ideals are subverted by entrenched power networks. This insight reveals a deeper truth about social transformation: structural change without genuine political democratization risks reproducing inequality under a different guise. The “new class” operates through subtle mechanisms—access to information, networks of patronage, and institutional control—making it a formidable barrier to authentic reform.

Key Insights and Enduring Relevance

One of the most compelling aspects of *The New Class* is its emphasis on ideology as a tool of domination. Djilas demonstrates how even well-intentioned socialist movements can be co-opted, as revolutionary rhetoric masks the consolidation of elite power. His work urges readers to scrutinize not just economic inequality, but also the distribution of influence and decision-making. This perspective enriches modern analyses of governance, particularly in contexts where formal democracy coexists with opaque power structures. Another critical insight lies in Djilas's recognition of the moral decay that often accompanies elite entrenchment. When authority becomes detached from accountability, corruption and complacency follow, undermining public trust and social cohesion. This dynamic resonates strongly in today's global landscape, where populist movements and institutional distrust reflect growing skepticism toward established elites.

Applications in Contemporary Society and Policy

The framework of the "new class" offers valuable tools for policymakers, activists, and scholars seeking to understand and address systemic inequities. By identifying how power concentrates through institutional channels rather than solely through wealth, reformers can target governance reforms that promote transparency, accountability, and participatory decision-making. For example, strengthening anti-corruption

measures, enhancing media independence, and decentralizing authority help dismantle monopolies of control. In educational and civil society contexts, Djilas's work inspires critical engagement with authority and encourages civic vigilance. Understanding the "new class" enables individuals to recognize subtle forms of power and advocate for inclusive, merit-based systems that prioritize public interest over private gain.

Looking Ahead: The Future of Djilas's Vision

As societies grapple with rising inequality, democratic backsliding, and digital surveillance, Djilas's insights into the "new class" remain profoundly prescient. The rise of technocratic governance, private influence over public institutions, and opaque corporate power structures echo his warnings about elite entrenchment. Yet, his work also offers hope: by illuminating how power operates, it empowers citizens to challenge it. The future of democratic renewal may well depend on applying Djilas's critical lens—to expose hidden networks of privilege, demand institutional integrity, and reclaim public space from opaque control. In this way, *The New Class* continues to serve not only as a historical analysis but as a living guide for building more equitable and accountable societies.

Milovan Đilas, a name intrinsically linked to the ideological and political upheaval of the 20th century, left an indelible mark on Marxist thought and the understanding of power dynamics

within communist states. His seminal work, *The New Class: An Analysis of the Communist System*, published in 1957, remains a profound and controversial examination of the ruling elite that emerged from the communist revolutions. This article delves into the core tenets of Đilas's "new class" theory, its historical context, its enduring relevance, and the criticisms it has faced, aiming to provide a comprehensive and analytical overview for those seeking to understand the inner workings of totalitarian regimes and the evolution of political power.

Milovan Đilas: The Maverick Marxist

Before dissecting his most famous work, it's crucial to understand the man behind the analysis. Milovan Đilas (pronounced Jee-lass) was not a detached observer of communism; he was a central architect of it. A prominent Yugoslav communist, revolutionary, and close confidant of Josip Broz Tito, Đilas was deeply involved in the Partisan struggle during World War II and the subsequent establishment of communist Yugoslavia. He held high-ranking positions within the League of Communists of Yugoslavia, serving as Tito's deputy and heir apparent. However, his intellectual honesty and unwavering commitment to Marxist principles ultimately led him to question the very system he helped create.

From Revolutionary to Dissident

Đilas's disillusionment began as he witnessed the burgeoning bureaucracy and the concentration of power within the hands

of the party elite in post-war Yugoslavia and other communist nations. He saw a disconnect between the proclaimed ideals of equality and liberation and the reality of a new form of domination. This personal journey from a devoted revolutionary to a vocal critic and eventual political prisoner is integral to understanding the weight and authenticity of his critique. His experiences in the communist hierarchy provided him with an insider's perspective, lending his analysis a unique and undeniable credibility.

The Genesis of 'The New Class'

The New Class emerged from Đilas's deep introspection and his growing unease with the trajectory of communist states. While officially expelled from the party and imprisoned for his views, his writing continued, smuggled out and eventually published to global acclaim and condemnation. The book provided a theoretical framework to explain the phenomenon he observed: the emergence of a privileged stratum within communist societies that, despite the abolition of private property, managed to accumulate and wield immense power and authority.

Defining the 'New Class'

At its core, Đilas's theory posits that communist revolutions, rather than ushering in a classless society, merely replaced the old exploiting class (the bourgeoisie) with a new one. This "new class" was not defined by ownership of the means of production in the traditional capitalist sense, but by its control over them and its monopoly on political power. This elite

comprised party officials, government bureaucrats, state managers, and ideologues – those who held positions of authority within the centralized, planned economies and one-party systems.

Characteristics of the New Class

The new class, according to Dilas, exhibited several key characteristics:

1. **Political Monopoly:** They held exclusive control over the political apparatus, stifling any dissent or opposition.
2. **Economic Control:** While not owning private property, they controlled the distribution of national resources and the allocation of economic benefits. This control translated into privileges, better living standards, and access to scarce goods and services.
3. **Ideological Dominance:** They propagated and enforced an official ideology that justified their rule and obscured their privileged status. Marxism-Leninism, as interpreted and implemented by the party, became a tool for maintaining power.
4. **Alienation from the People:** The new class became increasingly detached from the masses they claimed to represent, fostering a sense of estrangement and hindering genuine social progress.
5. **Lack of Accountability:** Without democratic checks and balances, the new class was largely unaccountable to the broader population, leading to corruption and nepotism.

The Nature of Communist Power

Đilas argued that the communist party, through its nationalization of industry and its monopolistic grip on power, created a unique form of domination. This was not merely an economic phenomenon but a political and social one. The party elite, by controlling both the state and the economy, essentially became the ultimate arbiters of social destiny. This concentration of power, he believed, was an inevitable consequence of the revolutionary process when unchecked by democratic institutions.

Critique of State Socialism

His analysis offered a sharp critique of state socialism, revealing how the theoretical promise of liberation could devolve into a new form of servitude. He challenged the notion that nationalization and central planning inherently led to a more equitable society, demonstrating how these mechanisms could be exploited by a ruling elite for their own benefit. The absence of political freedom, he argued, was inextricably linked to economic inequality and the perpetuation of a hierarchical system.

The Role of Ideology

Ideology played a crucial role in maintaining the power of the new class. Đilas understood that communist regimes relied heavily on the manipulation of Marxist-Leninist dogma to legitimize their authority and suppress any challenges. The

official narrative presented the party as the vanguard of the proletariat, acting in the best interests of the working class, while conveniently ignoring the growing disparities and the emergence of their own privileged existence. This ideological control was essential for maintaining social cohesion and preventing widespread rebellion.

Impact and Reception of 'The New Class'

Upon its release, *The New Class* sent shockwaves through both the communist and the capitalist worlds. For Western observers, it provided a compelling and insightful explanation for the failures and contradictions of Soviet-style communism, validating their own critiques of the system. It offered a theoretical framework to understand the apparent paradox of communist regimes becoming increasingly authoritarian and stratified.

Condemnation in the Communist Bloc

Within communist countries, the book was, predictably, met with fierce condemnation. It was denounced as a treacherous and anti-communist work, and its author was branded a traitor and revisionist. Đilas's own experiences as a political prisoner in Yugoslavia underscored the danger of challenging the established order. The communist authorities recognized the potent threat his ideas posed to the legitimacy of their rule.

Enduring Relevance of the Theory

Despite the passage of time and the collapse of many communist regimes, Đilas's concept of the "new class" continues to resonate. While the specific manifestations of power may have evolved, the underlying dynamic of an elite leveraging control over political and economic systems for self-perpetuation remains a relevant analytical tool. Scholars and commentators still refer to his theory when examining authoritarianism, corruption, and the concentration of power in various political systems, even outside the traditional communist context. The study of political elites and their influence is a perennial academic pursuit, and Đilas's work remains a foundational text in this field.

Criticisms and Counterarguments

Like any influential theory, *The New Class* has not been without its critics. Some argue that Đilas's thesis was too deterministic, overemphasizing the inevitability of a new ruling class emerging from communist revolutions. Others contend that his focus on the political elite overlooked the agency and struggles of the working class and the peasantry.

The Question of "Class"

A significant point of contention has been whether the ruling elite in communist states truly constituted a "class" in the Marxist sense. Critics have argued that the absence of private ownership of the means of production differentiates them fundamentally from the capitalist bourgeoisie. Đilas, however,

adapted the concept to reflect the reality of power and control in a different socio-economic system. His definition focused on the functional control and the associated privileges rather than strict ownership.

Alternative Interpretations

Some scholars have offered alternative explanations for the rise of bureaucratic elites in communist states, pointing to factors such as the demands of industrialization, the nature of one-party rule, and the historical legacies of authoritarianism. These perspectives often highlight the complex interplay of internal and external pressures that shaped these societies, rather than solely attributing them to the emergence of a monolithic "new class."

Conclusion: A Timeless Analysis of Power

Milovan Đilas's *The New Class* remains a landmark work in political theory. It is a testament to the courage of an intellectual willing to confront the contradictions within his own ideology and to the enduring power of critical analysis. By dissecting the mechanisms of control and privilege within communist systems, Đilas provided an invaluable lens through which to understand not only the past but also the persistent challenges of power, inequality, and accountability in political systems across the globe. His analysis of the self-serving nature of power, regardless of its ideological guise, continues to offer crucial insights for anyone seeking to understand the

complexities of governance and the pursuit of a truly equitable society. The legacy of Milovan Đilas and his profound critique of the new class lives on, prompting ongoing reflection on the enduring struggle for genuine freedom and social justice.

Questions & Answers About milovan djilas the new class

No	Question	Answer
1	What exactly is Milovan Đilas's 'New Class'?	The 'New Class' refers to the post-World War II Communist Party bureaucracy in Yugoslavia. Đilas argued this class, wielding political and economic power, had become a new exploiting stratum, distinct from the proletariat it claimed to represent.
2	Why did Đilas criticize the Communist Party he helped build?	Having been a key leader and ideologue, Đilas's criticism stemmed from his observation that the party elite had prioritized their own power and privilege over genuine socialist ideals and the welfare of the masses.

3	What was the immediate consequence of Đilas publishing 'The New Class'?	The book, published in 1957, was highly critical of Tito's Yugoslavia. As a result, Đilas was expelled from the Communist Party, stripped of his titles, and imprisoned multiple times for his views.

Đilas advocated for greater freedom of thought and expression, decentralization of power, and a more genuine democratization of political and economic life. In general, only free, open-access, or public domain versions of Milovan Djilas *The New Class* may be shared freely.
