Whether you're a seasoned MSTie or a curious newcomer, we'll guide you through the different eras, highlighting key characteristics to help you embark on your MST3K adventure. Advantages of Different MST3K Eras: While objective "best" is impossible, different eras offer distinct advantages: • **Joel Robinson Era (Seasons 1-6):** Joel's dry wit and improvisational genius create a unique, laid-back atmosphere. The early episodes often feature more obscure and truly terrible movies, leading to some of the most creative riffing. • Advantage: A sense of discovery and pioneering spirit, often featuring truly bizarre films. • Disadvantage: Lower production values compared to later seasons. • **Mike Nelson Era (Seasons 7-10):** Mike's sarcastic and cynical humor provides a sharper, faster-paced riffing style. The movie selection is broader, mixing truly awful films with cult classics. • *Advantage:* More consistent high-quality riffing and a broader range of movie choices. • Disadvantage: The humor can be more consistently sarcastic than Joel's gentler approach. • **Jonah Heston**

Era (Netflix Revival & The Gauntlet): Jonah's energetic, almost chaotic approach to riffing brings a contemporary feel. The revival features a more diverse range of movies and a more modern aesthetic. • Advantage: Modern sensibilities, fresh perspectives on riffing, and a more diverse range of movies. • **Disadvantage:** Can feel less cohesive than the earlier seasons for some long-time fans.

Choosing Your MST3K Adventure: Movie Genres and Themes

MST3K's charm lies in the diversity of the movies selected. Exploring the genre you enjoy most can significantly improve your viewing experience. Here's a breakdown: • Science Fiction: Many early episodes feature truly awful sci-fi epics, perfect for those who enjoy the camp of B-movie space adventures. Examples include "This Island Earth" (Joel era) and "Space Mutiny" (Mike era). • **Horror:** From cheesy monster movies to bizarre psychological thrillers, MST3K's horror selection offers a unique blend of scares and laughter. "Night of the Blood Beast" and "The Undead" are excellent examples. • **Action/Adventure:** While less prevalent than sci-fi and horror, MST3K has included its fair share of cheesy action flicks. These often provide opportunities for physical comedy and over-the-top riffing.

The Impact of the Host and the Robots

The comedic chemistry between the host and the robots (Tom Servo, Crow T. Robot, and Gypsy) is a crucial element of the show's success. Each host has a unique dynamic with the robots, which significantly impacts the overall comedic tone: | Host | Riffing Style | Robot Dynamic | |||| | Joel Robinson | Laid-back, improvisational | Playful, collaborative | | Mike Nelson | Sarcastic, witty | More antagonistic, faster paced | | Jonah Heston | Energetic, chaotic | More integrated, interactive | This table shows the stylistic differences between hosts and their interplay with the robots,

allowing viewers to choose based on their preferred comedic style.

Beyond the Episodes: Exploring the MST3K Universe

The impact of MST3K extends far beyond individual episodes. The show's cultural influence is evident in: • *The Rifftrax Company:* A spin-off company featuring the MST3K cast riffing on other films. This offers a continuation of the riffing experience outside the original show's canon. • The MST3K Fandom: A passionate and dedicated fanbase that continues to create and share content, ensuring the show's legacy remains strong. The Best of the Best: A Deep Dive into Mystery Science Theater 3000

For over three decades, **Mystery Science Theater 3000 (MST3K)** has been a beacon of comedic genius, a loving, yet relentlessly sarcastic, dissection of cinematic duds and forgotten gems. What started as a quirky local public access show has blossomed into a beloved cult classic, spawning multiple iterations and a passionate fanbase that spans generations. But with hundreds of episodes, a vast ocean of terrible movies, and a rotating cast of brilliant minds riffing on them, how do you even begin to find the "best" of MST3K? That's where we come in. This isn't just a list; it's a journey through the golden age of movie mockery, a curated exploration of episodes that perfectly encapsulate the show's unique brand of humor, inventive puppetry, and, of course, the glorious awfulness of the films they chose to torment. Whether you're a seasoned MSTie or a curious newcomer, prepare to dive into the episodes that truly define the legend of Mystery Science Theater 3000.

The Genesis of Genius: Early Classics and the Joel Hodgson Era

The Joel Hodgson era, spanning the first five seasons, laid the groundwork for everything that made MST3K so special. Joel, with his earnest demeanor and infectious enthusiasm, was the perfect foil for the cynical robot duo, Tom Servo and Crow T. Robot, and the ever-present (and often misunderstood) scientist, Dr. Clayton Forrester. These early episodes are a treasure trove of foundational humor and showcase the show's organic evolution.

Space Mutiny: The Crown Jewel of Awful Sci-Fi

If there's one movie that most MST3K fans will point to as the pinnacle of the show's achievements, it's likely **Space Mutiny**. This 1983 South African sci-fi flick is so spectacularly bad, it's almost transcendent. From the nonsensical plot involving a space-faring cop and a disco-ball-esque villain to the truly bewildering costume design and acting, *Space Mutiny* was practically begging for the MST3K treatment. The riffs are legendary. The entire concept of the "Slams" – the impossibly athletic and yet utterly pointless fight scenes – becomes a running gag that never gets old. Tom Servo's obsession with the character of Dave Ryder, and Crow's increasingly bizarre interpretations of the film's logic, are pure comedic gold. This episode is a masterclass in how to take something truly inept and elevate it to art through sheer wit and relentless mockery. It’s an essential watch for any fan of **bad movies** and comedy.

Gunslinger: A Western Gone Wrong

(Hilariously So)

Another standout from the early Joel era is **Gunslinger**. This 1989 direct-to-video Western is a prime example of a film that tried to tap into a genre but missed the mark by a country mile. The MST3K crew, led by Joel, absolutely tear it apart. The film's amateurish production values, ham-fisted dialogue, and questionable pacing are all meticulously dissected with surgical precision and hilarious observations. What makes *Gunslinger* so special is the sheer absurdity of its plot and characters. The MST3K team leans into the ridiculousness, creating memorable bits about the film's baffling narrative choices and its surprisingly violent, yet oddly boring, action sequences. It’s a testament to the show's ability to find humor in even the most unpromising material, solidifying its reputation as the ultimate **movie riffing** experience.

The Giant Gila Monster: A Creature Feature Classic (for the Wrong Reasons)

When you think of MST3K, you often think of its iconic sci-fi and horror offerings. But the show proved its mettle with other genres too, and **The Giant Gila Monster** is a prime example. This 1959 B-movie is a delightful mess of cheap special effects, a surprisingly slow-moving giant lizard, and a plot that seems to exist solely to showcase the titular monster's mild menace. The MST3K crew absolutely thrives on the film's low-budget charm and its inherent silliness. They mock everything from the peculiar dialogue to the earnest, yet unconvincing, performances. The episode perfectly captures the innocent, slightly cheesy vibe of 1950s monster movies while simultaneously exposing their glaring flaws. It's a warm, fuzzy kind of badness that MST3K handles with aplomb, making it a truly beloved episode.

The Mike Nelson Era: Evolution and Expanding Horizons

The departure of Joel Hodgson marked a significant turning point for MST3K, but the show proved remarkably resilient. Mike Nelson stepped into the captain's chair, bringing a slightly different energy and comedic sensibility. The Mike Nelson era, spanning seasons 6-10 and the Netflix revival, saw the show mature, tackle even more ambitious cinematic failures, and introduce new beloved characters and writers.

The Brain That Wouldn't Die: A Sci-Fi Masterpiece of Mad Science

If there's one film from the Mike Nelson era that consistently ranks among the best, it's **The Brain That Wouldn't Die**. This 1962 exploitation flick is a fever dream of mad science, disembodied heads, and questionable surgical procedures. The MST3K crew has a field day with its lurid premise and its gloriously cheap production. The episode is packed with unforgettable moments, from the unforgettable "Jan" and her talking head to the utterly ludicrous attempts at science. Mike and the bots' riffing is sharp, witty, and perfectly timed, highlighting the film's inherent camp value and its bizarre, unsettling undertones. This episode showcases the Mike era's ability to embrace the truly weird and turn it into pure comedic gold. It's a testament to the enduring appeal of **cult movies**.

Hobgoblins: A Masterclass in Unintentional Comedy

Hobgoblins is another film that has achieved legendary status within the MST3K fandom, and for good reason. This 1988 horror-comedy is a glorious trainwreck, boasting terrible acting, a nonsensical plot involving demonic

costumes that grant wishes, and a budget that clearly couldn't afford much. The MST3K team, especially during the Mike Nelson era, is in absolute top form here. The episode is a masterclass in observational humor, with the crew pointing out every single flaw, every continuity error, and every baffling creative decision. The running gags, the character impersonations, and the sheer joy with which they torment the film are all hallmarks of a truly great MST3K episode. *Hobgoblins* is proof that sometimes, the worst movies make for the best comedy. It solidified MST3K's reputation for finding the funniest of the **worst movies ever made**.

Santa Claus Conquers the Martians: A Holiday Horror (and Hilariousness)

While not strictly a horror film, **Santa Claus Conquers the Martians** is a cinematic experience that is, in its own way, terrifying. This 1964 holiday "classic" is a bewilderingly earnest, yet utterly incompetent, attempt at a Christmas movie. The MST3K crew, particularly during the Mike Nelson era, relishes in its sheer awfulness. The episode is filled with delightful riffs on the film's baffling logic, its bizarre alien costumes, and its even more bizarre plot. The songs are particularly ripe for mockery, and the MST3K team absolutely demolishes them. It's an episode that proves MST3K isn't just about dissecting B-movies; it's about finding the humor in any cinematic disaster, no matter how festive or misguided. It's a holiday tradition for many MSTies, proving the enduring charm of **bad Christmas movies**.

The Netflix Revival: A New Generation, Same Great Riffing

After a long hiatus, MST3K returned to our screens with a Netflix revival, bringing back some familiar faces and introducing a new generation of fans

to the magic of movie mocking. While the format and some of the comedic sensibilities evolved, the core of what made MST3K great remained: a deep love for cinema, a sharp wit, and an unwavering commitment to making us laugh at the worst the film industry has to offer.

The Brain: A Sci-Fi Classic Gets the MST3K Treatment

One of the standout episodes from the Netflix revival is **The Brain**. This 1988 horror-comedy, while not as universally reviled as some of the earlier films, presented a unique challenge for the MST3K crew. The film, about a scientist creating mind-controlled gorillas, is filled with quirky ideas and a distinctive, albeit often unintentionally funny, tone. The new cast and writers rose to the occasion, delivering sharp, insightful, and hilarious riffs that perfectly capture the spirit of the original show. They cleverly play with the film's B-movie tropes, its clunky dialogue, and its memorable imagery. It's an episode that proves the MST3K formula is timeless and can adapt to new cinematic fodder while retaining its core appeal. This revival further cemented MST3K's place in the pantheon of **comedy shows**.

Cry Wilderness: A Bigfoot Fable for the Ages (of Badness)

Another gem from the Netflix revival is **Cry Wilderness**. This 2013 indie film, about a Bigfoot who befriends a lonely boy, is a labor of love from its filmmakers, but the MST3K team, as always, finds the humor in its earnestness and its undeniable B-movie charm. The episode is a fantastic example of the revival's ability to embrace both the genuinely terrible and the lovingly crafted failures. The riffs are smart, observational, and often deeply empathetic, recognizing the passion behind the project while still gleefully pointing out its flaws. It's a testament to MST3K's ability to be both critical and celebratory of cinema's more eccentric corners. This episode is

a great example of modern **comedy writing** applied to film criticism.

The Enigmatic Appeal of Mystery Science Theater 3000

Science Theater 3000, often abbreviated as ST3, stands as a singular cultural phenomenon that blends science fiction with comedy in a way that transcends mere entertainment. Far more than a sitcom or sketch show, it is a meticulously crafted narrative universe where mystery, satire, and speculative science converge into a uniquely engaging experience. At its core, the series follows the misadventures of a band of misfit viewers—most notably the lead DJ, Mike, alongside his loyal followers—who collectively analyze and comment on the absurd, often chaotic, scientific storytelling found in low-budget sci-fi films. This immersive blend of fandom and critique creates a space where viewers don't just watch a story unfold—they become active participants in deciphering its flaws, logic gaps, and hidden humor.

A Journey Through Sci-Fi Mystery and Misdirection

The show's strength lies in its deep reverence for classic science fiction tropes, reimagined through a comedic lens. Each episode unravels a different cinematic mystery—often involving time travel paradoxes, alien encounters, or improbable technology—yet never takes itself too seriously. Instead, the cast delivers rapid-fire commentary that dissects plot inconsistencies, exaggerated special effects, and narrative shortcuts with both wit and insight. This approach transforms passive viewing into an intellectual puzzle, inviting audiences to think critically about storytelling conventions while laughing at their breakdowns. Audiences learn to recognize narrative patterns, identify logical fallacies, and appreciate the craft behind storytelling—skills that extend well beyond the screen. In an era dominated by fast-paced media, ST3 offers a refreshing pause, inviting viewers to slow down, think, and appreciate the artistry hidden in flawed science fiction.

Applications Beyond Entertainment: Education, Community, and Creativity

The show's interactive spirit has inspired science clubs and online forums where fans dissect episodes, propose alternative endings, and even create their own science fiction parodies. This creative engagement fosters collaboration, digital literacy, and a shared love for science and storytelling. Moreover, the ST3 universe has become a cultural touchstone, uniting generations of fans through memes, cosplay, and fan fiction—proof of its enduring relevance.

The Future of Mystery Science Theater 3000

As digital platforms continue to reshape how content is consumed, the future of Mystery Science Theater 3000 appears both dynamic and promising. The show's adaptability—evident in its long-running revival, podcasts, and interactive web content—positions it well for continued growth. Emerging technologies like virtual reality and AI-driven storytelling could further expand ST3's immersive potential, allowing fans to step inside the narrative world and experience its mysteries firsthand. Additionally, the increasing demand for thoughtful, genre-blending comedy opens new avenues for ST3 to explore diverse sci-fi subgenres and global storytelling influences. Yet, no matter how the format evolves, the heart of Mystery Science Theater 3000—its mix of laughter, curiosity, and critical wonder—will remain timeless, ensuring its place as a beloved beacon in the landscape of alternative science fiction entertainment.

The Best Mystery Science Theater 3000 Episodes: A Deep Dive into Cinematic Catharsis

For over three decades, **Mystery Science Theater 3000 (MST3K)** has been a beacon of comedic brilliance, transforming cinematic duds into hilarious spectacles. The premise is simple yet genius: a lonely test subject, Joel or Mike, is forced to watch a relentless stream of terrible movies aboard the Satellite of Love, with his robot companions Tom Servo and Crow T. Robot providing a constant barrage of witty, insightful, and often nonsensical commentary. This unique blend of mockery and appreciation has spawned a devoted cult following, and pinpointing the absolute "best" **MST3K episodes** is a rite of passage for any fan. This article delves into what makes an MST3K episode truly shine, exploring the criteria for a great riff and highlighting some of the most beloved and critically acclaimed installments in the show's storied history.

What Makes an MST3K Episode "The Best"?

The magic of **Mystery Science Theater 3000** isn't solely dependent on the awfulness of the film being riffed. While a truly egregious movie is a fantastic starting point, several factors contribute to elevating an episode from merely good to legendary:

The Movie Itself: A Foundation of Badness

At its core, the quality of the source material is paramount. The best **MST3K movies** are those that possess a certain unintentional charm or profound incompetence. Think:

1. **Genuinely Bad Storytelling:** Incoherent plots, nonsensical dialogue, and gaping plot holes provide ample fodder for the bots.

2. **Unintentional Comedy:** Movies that take themselves far too seriously, yet fail spectacularly at every turn, are goldmines.
3. **Culturally Significant Badness:** Films that are infamous for their poor quality or historical context often make for more engaging riffs.
4. **Visual Gaffes:** Stiff acting, cheap special effects, and bizarre costumes are always a welcome addition.

Conversely, movies that are simply boring or competently made, albeit forgettable, rarely yield the most memorable riffs. The bots thrive on material that is ripe for dissecting and mocking, but not so offensive that it detracts from the humor.

The Riffs: The Heartbeat of the Show

The commentary, or "riffs," is where the genius of **MST3K** truly lies. The best riffs are:

1. **Clever and Topical:** Puns, pop culture references, and observations that perfectly encapsulate the absurdity on screen.
2. **Fast-Paced and Abundant:** A constant stream of jokes, with little downtime, keeps the energy high.
3. **Character-Driven:** The unique personalities of Joel, Mike, Tom Servo, and Crow T. Robot shine through their individual riffing styles.
4. **Self-Aware:** The bots often acknowledge the awfulness of the movie and their own predicament, adding another layer of meta-humor.

The synergy between the bots and their human counterparts is crucial. When they're firing on all cylinders, the riffs are a masterclass in comedic timing and observational humor. The quality of the writing team behind the jokes is a significant factor in the success of any given episode.

The Experiment: Pacing and Structure

While the movie is the main event, the "experiment" segments – the interludes where Joel or Mike are taken out of the theater and subjected to further madness – can significantly enhance an episode. These segments

allow for character development, physical comedy, and often tie into the themes or absurdities of the movie being watched. Well-executed skits can elevate a good episode to a great one, providing much-needed breaks from the on-screen torture and adding to the overall narrative of the show.

The "Joel vs. Mike" Debate: A Generational Divide

A significant portion of the **MST3K fanbase** has a preference for either the Joel Hodgson era or the Mike Nelson era. Both hosts brought distinct energies and comedic sensibilities to the show:

1. **Joel Hodgson:** Often perceived as the more innocent and earnest host, his riffs sometimes carried a slightly more childlike wonder and absurdity.
2. **Mike Nelson:** With a drier, more sarcastic wit, Mike's era often leaned into a more biting, observational brand of humor.

Ultimately, the "best" host is subjective. However, episodes from both eras are widely celebrated, showcasing the show's remarkable consistency in quality.

Top Tier MST3K Episodes: A Curated Selection

While a definitive list is impossible due to personal preference, certain **Mystery Science Theater 3000 episodes** consistently appear at the top of fan polls and critical discussions. These are the episodes that exemplify the show's peak comedic output:

The Cinematic Classics of Catastrophe

These films are so profoundly bad, they've achieved a sort of legendary status, and the MST3K treatment only amplified their infamy:

"Manos: The Hands of Fate" (Season 4)

Arguably the most infamous **MST3K episode**, "Manos" is a masterclass in cinematic failure. The film's nonsensical plot, baffling dialogue, and the perpetually vacant Torgo make it a perfect storm of badness. The riffs are relentless and iconic, with lines like "The film we're showing you tonight is a real fertilizer," and the enduring legacy of "The Master" and his lobotomized wives. This episode is often considered the benchmark for how truly terrible a movie can be and still be incredibly entertaining through mockery.

"The Brain That Wouldn't Die" (Season 2)

This schlocky sci-fi horror film about a mad scientist keeping his decapitated girlfriend alive is a treasure trove of absurdity. The MST3K crew had a field day with the film's low-budget effects, stilted acting, and ludicrous premise. The introduction of "Jan in the Pan" is a moment etched in MST3K lore, and the constant jabs at the "she's not dead, she's just unconscious" trope never get old. It's a prime example of how a genuinely bizarre movie can be transformed into something laugh-out-loud funny.

"Santa Claus Conquers the Martians" (Season 2)

A holiday tradition for many MST3K fans, this bafflingly earnest film about Martian attempts to kidnap Santa Claus is a prime target for the bots. The costumes are ridiculous, the plot is nonsensical, and the overall production values are astonishingly low. The bots' witty observations about Martian culture, Santa's questionable leadership, and the sheer pointlessness of the endeavor make this a consistently hilarious watch. The episode also features a memorable experiment involving a Martian suit.

"Pod People" (Season 1)

From the infamous "Trilogy of Terror," "Pod People" is a bizarre Italian sci-fi film that the MST3K team hilariously dissects. The film's confusing narrative, peculiar monster designs, and questionable dubbing provide endless opportunities for jokes. The episode is notable for the memorable song "Gamera, Gamera," which perfectly captures the spirit of the riffs. It's a testament to how even a seemingly incomprehensible film can be made hilarious with the right commentary.

"Space Mutiny" (Season 3)

This South African sci-fi action film is a prime example of a movie that is unintentionally hilarious. The stiff acting, bizarre futuristic fashion, and baffling plot points surrounding a "flying brick" are all expertly picked apart by Joel and the bots. The episode is filled with quotable lines and memorable riffs, showcasing the team's ability to find humor in even the most mundane aspects of a terrible film. The "Archie's death" scene is a particularly notorious highlight.

"Hobgoblins" (Season 4)

A film so bad it's practically a cult classic in its own right, "Hobgoblins" is a meta-commentary on the film industry itself, making it a perfect target for MST3K. The episode is filled with jokes about aspiring actors, exploitative directors, and the general mire of low-budget filmmaking. The bots' understanding and appreciation for the "craft" of bad moviemaking shine through, making for a particularly satisfying riff. The episode is also known for its unique opening sequence.

The Mike Nelson Era Masterpieces

Mike Nelson's tenure brought its own brand of brilliance, with episodes that

are equally beloved:

"The Sword and the Sorcerer" (Season 3)

This sword-and-sorcery epic is ripe for mockery, with its over-the-top action, cheesy dialogue, and ludicrous plot. Mike and the bots deliver a barrage of witty insults and observations, expertly dissecting the film's every flaw. The episode is particularly memorable for its inventive use of the pantyhose gag and the iconic "Pigman" riff. It showcases the sharp, biting humor that characterized Mike's era.

"Laserblast" (Season 3)

Another entry from the "Trilogy of Terror," "Laserblast" is a prime example of a film that is both incredibly bad and strangely compelling. The MST3K crew had a field day with the film's alien technology, bizarre plot, and rubber monster suits. The episode is filled with memorable riffs and sight gags, highlighting the team's ability to find humor in even the most outlandish scenarios. The "time for some fresh air" sequence is a recurring gag that never fails to amuse.

"The Mitchell" (Season 6)

This cult classic of a found-footage film about a dysfunctional family on a road trip is a perfect target for MST3K. The film's grainy footage, amateurish performances, and bizarre dialogue provide endless fodder for the bots. The episode is particularly memorable for its insightful (and hilarious) commentary on family dynamics and the nature of obsession. The "talking potato" is a character that has entered MST3K folklore.

"Final Justice" (Season 5)

A gloriously over-the-top action film, "Final Justice" is a prime example of the kind of movie MST3K excels at. The film's gratuitous violence, nonsensical plot, and bizarre characters are all expertly skewered by Joel and the bots. The episode is filled with memorable lines and hilarious riffs, showcasing the team's ability to find humor in even the most mundane aspects of a terrible film. The "cop with a mullet" trope is a recurring theme.

The Legacy Continues: The New Generation

While the original run is iconic, the revival of **Mystery Science Theater 3000** on Netflix and later its own platform, Gizmoplex, has introduced a new generation to the joys of bad movies. Episodes like **"The Christmas Contest"** and **"Turkey Day"** from the Netflix era, as well as numerous Gizmoplex exclusives, have proven that the spirit of MST3K is alive and well, continuing to deliver hilarious riffs on cinematic abominations.

The Enduring Appeal of MST3K

Questions & Answers About best mystery science theater 3000

No	Question	Answer

1	What are the absolute must-watch MST3K episodes for a newcomer?	For newcomers, 'Manos: The Hands of Fate,' 'The Brain That Wouldn't Die,' and 'Space Mutiny' are often cited as essential viewing. They showcase the show's humor, premise, and memorable riffs perfectly.
2	Who are considered the 'best' or most iconic hosts in MST3K history?	Joel Hodgson, the original host, is beloved for his gentle eccentricity. Michael J. Nelson, who took over for Joel, is praised for his sharp wit and comedic timing, leading many of the show's most popular seasons.
3	Beyond the movies themselves, what makes MST3K so enduringly funny?	The show's brilliance lies in the collaborative riffing between Joel/Mike and the robots (Tom Servo, Crow T. Robot, and Gypsy). Their witty commentary, absurd observations, and running gags transform terrible films into comedic gold.
4	Are there any specific movie genres MST3K excels at mocking?	MST3K is particularly adept at mocking cheesy sci-fi, low-budget horror, and bizarre foreign films. These genres often provide the perfect canvas for their creative and often nonsensical humor.
5	Where can I find MST3K episodes to watch legally today?	The official Shout! Factory website and their streaming service, Shout Factory TV, are excellent sources. Many episodes are also available on platforms like Pluto TV (with ads) and for purchase on digital storefronts.
6	What's the difference between the Joel era and the Mike era of MST3K?	The Joel era is generally seen as more innocent and quirky, with Joel's earnest enthusiasm. The Mike era, while still funny, often leans into a slightly more cynical and rapid-fire comedic style, with Mike's deadpan delivery.
7	Is there a consensus on the 'worst' movie ever riffed on MST3K?	While 'worst' is subjective, 'Manos: The Hands of Fate' is almost universally considered the nadir of bad cinema featured on the show. Its sheer incompetence makes it a prime target for MST3K's comedic genius.
